

I Must Be About My Father's Work

Jesus was in the temple having his oral exam before the doctors and his mother asked why he'd remained behind. Jesus answered, "How is it that ye sought me" Wist ye not that I must be about my Father's business?"

Okay, let's dispel a couple of absurdities. Jesus was not a chronological age of 12. No parent would leave her preteen behind and travel an entire day without checking to see if he was with them.

Secondly, the wise doctors had better things to do than debate with a 12 year old kid.

Laurence Gardner has shown that boys in line for the kingship had two birthdays, a physical one and a spiritual one that happened around the age of their bar mitzvah. So Jesus would've been about 24 chronological years.

The Bible is replete with numerical codes. Jesus' mastery of the principles of the zodiac is what is meant by his being 12 years old.

Today, any fool can jump up and claim to be a minister. But back in the day, a minister or priest had to graduate, pass tests, understand science and display his mastery by being questioned by the doctors, the heavyweights.

Each tribe of Israel was considered an embodiment of a particular zodiacal sign. The ancient Temples had zodiacs drawn on the floors and each tribe under its respective sign. In Genesis 49 Jacob gives each tribe its astrological designation.

<u>ANGEL</u>	<u>SIGN</u> <u>ARCHANGEL</u>	<u>TRIBE</u>	<u>DISCIPLE</u>	<u>PROPHET</u>	
Sharhiel	Aries Malchidial	Gad	Mathias	Malachi

The 24 Elders

Many traditions refer to 24 elders who are sometimes called 24 scientists, 24 seniors or 24 gods. They are divided into “12 major gods” and “12 minor gods.”

The 24 constellations are the 12 majors and the 12 types of quarks (subatomic particles) are the 12 minor (little) ones.

Jesus had to know all of this and so must we all this day. The scripture says “my people are destroyed for lack of knowledge” and our shocking ignorance of true wisdom is the cause of our deplorable condition.

Jesus is a sign of the spiritual aspirant. All have to go through the same developmental steps (initiations) that he went through. This is what he meant by “carry my cross” and “come follow me.”

Christianity has been hijacked by a bunch of thieves and liars who exploit the people for dollars and vanity and use the good name of Jesus to shield their own dirty religion which they call Christianity.

Jesus’ teachings are the most powerful on earth. What you are getting from the preachers and the televangelist showboat conmen is not Jesus’ gospel, it’s the gospel of Hell.

Take it or let it alone!

If Jesus were to return today he’d drive these crooks and pimps away like he drove out the money-changers from the temple: “You have taken my Father’s house and turned it into a den of thieves.”

They have substituted the gospel of Christ for a gospel about Christ. Religion, in their slipper, money-grabbling hands, has been reduced to a soap opera.

The 10th House

The 10th house of astrology reveals our mission, our purpose, our business in this incarnation.

Say what?

Let's get it straight from the jump: you don't just live one time; we all reincarnate many times until we become divine and can remain in heaven (the world of Atziluth in the Qaballah). Those who are already

divine have not more to fix in this world, but who come back to the material plane to save the rest of us are called "saviours." That is why Jesus was called "the Saviour."

This is what Jesus meant when he said "no one was in heaven but he who came down from heaven." In other words, he was the only one on earth who'd achieved full cultivation and actually knew what the kingdom of heaven was all about.

Jesus was born of Mary, yet he also said he existed before Abraham. How can both be true? The soul, the real self, had incarnated before and after Abraham.

Jesus said John the Baptist was Elijah come back. He told Nicodemus he had to be born again. Meaning he was still too immature and had to reincarnate and become an old soul, an "ancient of days," before he could qualify to enter the Kingdom.

Each time we are incarnated, our life's purpose is established in our 10th house.

Nowadays, the 10th house represents the mother, but in ancient times it represented the father.

Its natural ruler is Saturn, a planetary indicator of the father.

We come not just to do our individual egoistic thing, we also come to finish the business of our ancestors, our fathers.

But God is the ultimate father, and it is His business we are put on earth to do.

Let's use the chart of President Richard Nixon to see how the 10th house works.

Nixon's 10th house is in Gemini (II). The 10th house is the career house so Nixon had two careers going at once. Since Pluto (ruler of the underworld) is in his 10th we can decipher that one of his careers was secret.

Since the Eisenhower administration, Nixon secretly ran "black ops" and the Secret Government.

Nixon's 10th house ruler is Mercury in Capricorn in the 4th house. This means Nixon's purpose was to communicate (Mercury) older traditions and values (Capricorn) to the country (4th house).

Nixon always seemed older than his years and when he ran for President during the hippy free love, anti-war, revolutionary, drug experimentation late '60's Nixon was like a throwback to long forgotten times.

With Pluto in his 10th he was able to regenerate his dead career and win both the presidency and great wealth. Pluto in Gemini shows that Nixon unwittingly destroyed the independent media or free press in America because, after the press forced Nixon to resign, the Plutocrats (super rich) decided that was way too much power for a bunch of reporters to have. So they bought up the communications aparati in America and even had some reporters killed.

Scorpio on Nixon's 3rd house (newspapers) reinforces that.

Nixon's impact on America and the world would be very, very long-term (Mercury in Capricorn). The Nixon Supreme Court held America back for 40 years and basically lives on in the Roberts Court. The Nixon-Kissenger foreign policy remains the foundation of US foreign policy to this day.

Jesus' statement that he had to be about his father's business tells us that every spiritual aspirant has to do what the 10th house indicates is his or her purpose. Otherwise, we're not doing God's thing, we're doing our own silly thing.
